

# Randy Wiebe

## Highlights

- Able to quickly learn new development technologies and effectively apply them to projects
- Effective communicator with a great deal of customer service experience
- Comfortable in a leadership role and also able to recognize and support leadership in others
- Organized individual with a great amount of respect for deadlines
- Cooperative and flexible in a group environment

## Education

University of Western Ontario

September 2008 – April 2013

Specialization in Computer Science

Minor in Software Engineering

- Developed new functionality for the Android version of the official UWO mobile device app based on requirements given by the IT Services department as part of a fourth-year course in Software Maintenance and Configuration

Brock University

September 2005 – April 2008

Honors Bachelor of Accounting

- Completed 9.5 credits and four co-op terms before deciding to transfer to Computer Science

## Software Development Skills

Frameworks/SDKs: AngularJS, Android, Diverlements Wizard Framework, Crystal Reports, Janus GridEx, .NET (ASP.NET, Entity Framework, LINQ, MVC 5, Windows Forms, WCF, WPF), SQLite, Telerik Reporting

Languages: C, C++, C#, HTML/CSS, Java, Javascript, SQL, Typescript, XML, XSLT

Software: Eclipse, MKS Integrity, MS SQL Server 2008/2012, MS Visual Studio, SlickEdit, SQL Delta, Team Foundation Server

## Software Development Experience

### Software Developer

Camis, Inc., Guelph, Ontario

July 2013 – Present

- Developed efficient, reliable, and maintainable software features for clients through all phases of the software development lifecycle
- Implemented financial and operational reports for clients by writing accurate SQL queries and creating report front-ends in SAP Crystal Report and Telerik Reporting formats
- Performed troubleshooting of existing software products and implemented fixes for issues based on priority determined by Agile development methodologies
- Reviewed changes implemented by junior developers to ensure positive impact on overall software quality
- Created software releases for clients by analyzing database schema changes and preparing scripts to update production environments
- Innovated solutions to improve products during company-sponsored hackathons

## **Intern - Software Engineer**

Phoenix Interactive Design, Inc., London, Ontario

May 2011 – August 2012

- Developed new functionality and extended existing functionality for several products primarily using C++, C# and other .NET framework components.
- Created numerous prototypes and proof-of-concepts for architect team
- Collaborated with team members for some projects; individually completed others
- Analyzed existing code for potential reuse where appropriate

## **Leadership Experience**

### **Landscaper**

Gerald Murray Landscaping, London, Ontario

May 2009 – August 2009

- Headed the main component of a major landscaping project by collaborating with the client regarding their specifications, ensuring the necessary supplies were available on site when needed, and advising co-workers of the tasks to be completed

## **Communication Experience**

### **Tax Return Preparer**

Liberty Tax Service, London, Ontario

February - April 2009, 2010, 2011, 2012

- Interacted with clients from a wide array of backgrounds allowing for the completion of their income tax returns in an accurate and efficient manner thereby encouraging them to return as clients in successive years
- Delivered positive and negative news to clients concerning their tax returns or eligibility for Instant Refunds and offered explanations to the satisfaction of clients

## **Organizational Experience**

### **Staff Accountant**

Graham Scott Enns LLP, St. Thomas, Ontario

May 2006 – August 2006

January 2007 – April 2007

September 2007 – April 2008

- Prepared notice-to-reader, review, and parts of audit year ends for several sets of financial statements concurrently; a well-organized work area was a key factor in being able to efficiently prepare accurate statements
- Prioritized specific year-ends based on deadlines and when the required documents were supplied by the client
- Compiled an inventory of prior year-end and tax files so that management could determine which files could be discarded to generate space for new files, allowing the company to make the best use of its available storage space

## **Teamwork Experience**

### **Team Member**

Formet Industries, St. Thomas, Ontario

June 2010 – August 2010

July 2005 – August 2005

July 2004 – August 2004

- Maintained a steady flow of operations by loading/unloading parts in a timely manner on an assembly line where a delay from one station delays the entire line
- Assisted in maintaining the assembly line in an operable state by changing welding tips and cleaning robots and machinery at current station
- Participated in fostering a safe and productive work environment through keeping the work area and department in a cleanly state
